

Sculpture Jam & Workshop Application

This application is to clarify your interest in our Sculpture Jam & Sculpture Workshop offerings. The workshop in planned workshop will show various skills involving sculptures consisting of reclaimed &/ or natural materials. The jam is a group event to create and/ or finish artistic ideas into finished sculpture. (the Jam dates = weekends of Oct. 14th / 15th & 21st 22nd) . This is an opportunity to create sculpture, & potentially sell it (10% commission),and have prominent placement for viewing on Cobb Mountain locations.

Artist Responsibilities / Understanding

Artworks must be structurally safe for the general public including children. Artwork must be extremely durable and maintenance free for the one year exhibit. Acceptance of any sculpture is @ the complete discretion of identified buisnes or private property owners where it's placed.

Artist will be responsible to deliver sculptures & install them @ the chosen sites for display. (help may be available) Solar lights will be provided for evening viewing. Sculptures are also the artist responsibility to remove @ the completion of the one year exhibition. If your sculpture is not chosen for display you must remove it from the construction site by Oct. 29th. All are responsible to removing ANY leftover construction materials on completion of their works creation.

Artist acknowledge that no insurance will be provided for theft or vandalism. The Sculpture Jam committee encourages artist to provide their own insurance for this potential.

Artist will provide a concept of their idea with a basic description of the proposed art with this application. With the understanding that art is ever changing and a creative process, this information will help the sculpture jam committee and local business with criteria needed to choose/place sculptures around Cobb.
